

# Advanced Water Technologies

THE LEADER IN WASTEWATER TREATMENT

## Issues:

- ✓ Hydrogen sulphide levels
- ✓ Pumpability
- ✓ Organic build-up (sludge)
- ✓ Oxygen/ammonia levels
- ✓ Odour
- ✓ Grease build up

## Applications:

Simple application process to help better the above issues that are so common with wastewater. Our product is environmentally friendly and will make a difference!

## Solutions:

Our product will help create **your success story** like it has for numerous treatment plants and municipalities.

Treatment Plant

Septic Tank

Advanced Water Technologies (AWT) has been awarded a  
**Canadian Innovation Leader Certificate**  
for its revolutionary and environmentally sensitive water treatment program
